

**IN THE CLAIMS:**

1. (Currently amended) A shanty comprising:

a plurality of walls defining a room having an interior wherein each of the plurality of walls has a body defined by a length and a width wherein the length is defined between a first end and a second end and ~~[[a]]~~ the width is defined between a third end and a fourth end wherein a section of each of the plurality of walls at the first end, the second end, the third end, and the fourth end extends a first distance into the interior of the room and further extends a second distance parallel to the body of each of the plurality of walls; and

a plurality of roof panels defining a ceiling for the room wherein each of the plurality of roof panels has a body defined by a length and a width, wherein the length is defined between a first end and a second end and ~~[[a]]~~ the width is defined between a third end and a fourth end wherein a section of each of the plurality of roof panels at the first end extends into the interior of the room and further extends parallel to the body of each of the plurality of roof panels and further wherein the section of one of the plurality of walls ~~extending into the interior~~ is attached to the section of one of the plurality of roof panels ~~extending into the interior~~ wherein the plurality of walls and the plurality of roof panels attach to define the room.

2. (Currently amended) The shanty of Claim 1 further comprising:

a fastener attaching one of the plurality of walls ~~wall~~ to one of the plurality of roof panels ~~panel~~.

3. (Currently amended) The shanty of Claim 1 wherein the length of one of the plurality of roof panels is equal to twice the width of one of the plurality of walls.

4. (Original) The shanty of Claim 1 further comprising:

a post attached to one of the plurality of roof panels.

5. (Original) The shanty of Claim 1 further comprising:

a brace attached to one of the plurality of walls and one of the plurality of roof panels.

6. (Currently amended) The shanty of Claim 1 wherein the first distance of the a section of on the first end of one each of the plurality of walls is greater than the first distance of the section on at the third end of one of the plurality of walls ~~is folded into the interior of the room.~~

7. (Currently amended) The shanty of Claim 1 further comprising:

a hole formed within the section of the first end of one of the plurality of walls extends ~~wall extending~~ into the interior of the room.

8. (Currently amended) The shanty of Claim 1 further comprising:

a slot formed within the section of the first end of one of the plurality of roof panels extends ~~panel extending~~ into the interior of the room.

9. (Currently amended) The shanty of Claim 1 wherein the plurality of walls are constructed from metal.

10. (Currently amended) A system comprising:

a plurality of wall panels defining a room wherein each of the plurality of wall panels is defined by a body having ~~[[has]]~~ a length defined between a first end and a second end and further wherein a section is integrally formed with ~~[[of]]~~ each of the plurality of wall panels at the first end and extends a first distance perpendicular to the body of each of the plurality of wall panels and further extends a second distance toward the second end of each of the plurality of wall panels ~~panel~~;

a roof panel contacting the plurality of wall panels at the first end of each of the plurality of wall panels to provide a ceiling for the room wherein the roof panel is defined by a body having ~~has~~ a length defined between a first end and a second end wherein a section is integrally formed with ~~[[of]]~~ the roof panel at the first end of the roof panel and extends the first distance perpendicular to the body of the roof panel and further extends the second distance toward the second end of the roof panel; and

a fastener attaching one of the plurality of the wall panels to the roof panel wherein the section of the one of the plurality of wall panels ~~panel~~ extending perpendicular to the body ~~toward the second end~~ of the one of the plurality of wall panels ~~panel~~ is

attached to the section of the roof panel extending toward the second end of the roof panel.

11. (Original) The system of Claim 10 further comprising:

a post attached to the roof panel.

12. (Currently amended) The system of Claim 10 further comprising:

a slot formed within the section of the one of the plurality of wall panels ~~panel~~.

13. (Original) The system of Claim 10 further comprising:

a slot formed within the section of the roof panel.

14. (Currently amended) The system of Claim 10 further comprising:

~~wherein the roof panel is defined by a plurality of removably attached sections.~~

a door positioned adjacent to one of the plurality of wall panels.

15. (Currently amended) The system of Claim 10 further comprising:

a handle attached to one of the plurality of wall panels ~~panel~~.

16. (Currently amended) The system of Claim 10 further comprising:

a hinge attached to one of the plurality of wall panels ~~panel~~.

17. (Original) The system of Claim 10 further comprising:

a brace attached to one of the plurality of wall panels and the roof panel.

18. (Currently amended) A method for assembling a shanty ~~having an interior~~, the method comprising the steps of:

providing a plurality of walls defining a room having an interior wherein each of the walls has a perimeter defining a plane between four edges ~~a length defined between a first end and a second end~~ wherein a first portion ~~section~~ of each of the plurality of walls at each of the four edges ~~first end~~ extends into the interior of the room and abuts a second portion of each of the plurality of walls which extends parallel to the plane of each of the plurality of walls;

providing a roof panel defining a ceiling for the room wherein the roof panel has a length defined between a first end and a second end wherein a first section of the roof panel at the first end extends into the interior of the room and abuts a second section of the roof panel wherein the second section of the roof panel extends toward the second end; and

fastening the first portion of one of the plurality of walls ~~wall panels~~ to ~~one of the~~ second section of the ~~plurality of~~ roof panel ~~panels~~.

19. (Original) The method of Claim 18 further comprising the step of:

attaching a post to the roof panel.

20. (Original) The method of Claim 18 further comprising the step of:

attaching a hinge to one of the plurality of wall panels.
